Networking	Preferred - Wireless 802.11 b/g/n Minimum- Wireless 802.11 b/g
Ports	2 USB ports 1 VGA or DVI/HDMI/etc. with a VGA adapter
Display	13" minimum display (15.6" recommended) 1024 X 768 resolution or better
Portable Storage	2 GB

Students may use tablets that have internet access and word processing capability. Students must be able to produce and send documents.

Students using tablets need a detachable keyboard.

Students using Apple products will need parental assistance to download apps that enable their computer to collaborate and send work easily.

When students come to school, they should know how to turn on the computer and get to their word processing software or access google docs. We will show them how to name, save, and retrieve files.

Charge computers nightly!
